Declaration

I hereby declare that I have written this thesis independently and have not used any sources other than those listed in the bibliography. I have adhered to the rules of good scientific practice.

All passages that are taken verbatim or in substance from published or unpublished sources are identified as such.

The drawings or illustrations in this paper have been created by me or are accompanied by appropriate references.

The use of artificial intelligence (AI), specifically of large language models (LLMs), was limited to the improvement of phrasing.

This thesis has not been submitted in the same or a similar form to any other examination authority.

C	References	22

List of Figures

2.1 <short caption> 15

List of Tables

2.1	<short caption>	15
-----	---------------------------	----

<first chapter title>

This is my introduction. This template was created by Vieira Fischer (2026). This is the “first paragraph”.

This is the second paragraph, directly following the first

This paragraph has a small distance to the previous.

This one has a medium distance.

This paragraph has a big distance to the previous. Isn't that lovely?

Methodology

These are interesting methods.

2.1 First Method

I did this. Bachelor of Sciences (B.Sc.s) is the plural of B.Sc. when using abbreviations.

2.1.1 A Detail

This is part of the first method.

2.1.2 Another Detail

Also belongs to the first method. Here I have reset the Bachelor of Science (B.Sc.) abbreviations so it shows long again.

2.2 Second Method

I also did this (Vieira Fischer, 2026). Don't refer to Figure 2.1 (it is 5 cm wide). Rather look at Table 2.1!

Figure 2.1: <long caption>(Goethe University, n.d.)

Table 2.1: <long caption>

<col1>	<col2>
<num1>	<num2>

Discussion

This is the last part of my main content. Hereafter, only the appendix follows.

Abbreviations

B.Sc. Bachelor of Science

Additional Material

Here I can add as many figures, tables, and as much code as I want. Anything my heart desires.
